The Canadian Loan.

Complete Success of Sir Leonard Tilley's Mission.

Armstrong Guns for Canada.

Riots at Newry, County Meath.

The Papal Nuncio at Paris Publicly Insulted.

LONDON, July 15.—The new Canadian 4 per cent. loan has been fully subscribed.—Tenders at the official minimum of 95 per cent. will receive about 90 per cent. of the amount of their tenders. All tenders above 95 receive the full amount bid for.

LONDON, July 16.—The well-known gun factory of Sir William Armstrong & Co., at Elswick, Newcastle-on-Tyne, has, it is stated, handed over to the authorities a number of their heaviest breech-loading guns, which have been manufactured specially for the defences of Canada.

Mr. Copper, agent of the Canadian Government, will leave Liverpool next week accompanied by a number of Lancashire farmers, who are emigrating to Manitoba.

LONDON, July 15.—Reinforcements of the constabulary force have been ordered to proceed to Coal Island, County Meath, in consequence of the July riots at Newry, County of Meath. A sub-inspector of police has been shot.

The Russian Minister of Finance has allotted 63,000 roubles for the expense of surveying the rivers of Siberia and ascertaining what is necessary for the improvement of their navigation.

A Berlin despatch says Dr. Friedenthals has been exonerated. Dr. Falk declined the honor tendered to himself, but accepted for his son.

The ex-Empress Eugenie has issued an address, in which she publicly thanks the English people for their sympathy on the death of the Prince Imperial.

While the Papal Nuncio at Paris was entering his carriage on Sunday last he was insulted by some unknown persons.

The Canadian Militia.

The London *Globe* and *Traveller* may as well be put right about the Canadian Militia. The 600,000 men enrolled in the ranks of the Canadian Militia are composed of 60,000 myths, 20,000 men with uniforms, but who seldom wear them, and about 20,000 *bona fide* men in uniform. Our outsiders's "congratulation" on our "immense" volunteer reserve is a hallucination. The fact is we have no "reserve;" we have no military organization; we have no backbone, but we have about 20,000 men in uniform. Very few of our officers know their duties; very few of our quartermasters ever bought a loaf of bread for their men; very few of our pay-masters ever saw the *inside* of their regimental duties, and the whole force is a shell without a kernel. Those rumours about our "efficiency," etc., etc., do harm instead of good. The true friend of the volunteer Militia will point out the evils of the system and not cover up its sores. The Lieut.-General Commanding could do no more than he has done, and even the outward semblance of efficiency which now prevails is mainly due to his energy. But to talk of the volunteer force of this country being "efficient" is not to talk common sense. No doubt many of the battalions look well, and their soldierly bearing on review would be a credit to any organization in the world. But there it begins and there it ends, but if tried, at present our Volunteer Militia would crumble to pieces like a moth eaten garment. —*Montreal Post.*

An Amorous Sport.

NEW YORK, July 14.—While Charles A. Harriman, pedestrian was training for the great international walk in this city recently, he resided at the St. James' Hotel and became enamored of Mrs Stockhouse, wife of the steward of the hotel and also sister of Theodore Walton, proprietor. She returned his affection and they eloped on the 7th inst. The elopement is the general topic of conversation in the upper circles, in which the lady moved. The husband, it is said, has begun proceedings for divorce and a suit against Harriman for damages. Harriman's account at the Bloylston Bank has been attached. Mrs. Stockhouse returned to the city on Saturday repentant, and implored her husband to be taken back, but he refused to again receive her.

NEW YORK, July 14.—Edward O'Kelly, the last of the Fenian prisoners released from confinement at Spike Island, Cork harbor, died at Newark Saturday night. He arrived in this city February 27th, the condition of the garden being that he should stay out of Ireland. O'Kelly came here penniless, having refused the gratuity such as other released Fenians accepted from the British Government. He even made the voyage in steerage, declining a cabin ticket bought with British gold. He got work in a factory at Newark, but prison life had broken down his health, and hemmorrhage of the lungs sent him to his death bed. He retained all his enthusiasm in the cause of Irish nationalism. His request was that his body be left in Newark until it could be transferred free to Irish soil. He was 34 years of age.

EPPS'S COCOA.—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack whenever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame.—*Civil Service Gazette.*—Sold only in Packets labelled—"JAMES EPPS & CO., Homœopathic Chemists, London Eng."
